ANOTHER BUNCH OF CATTLE RUSTLERS CON- FESS TO THEFTS

Another gang of cattle thieves have been brought to justice by the Alberta Provincial Police. Early in the summer, complaints were received by the police of the loss of several head of cattle in the vicinity of Castor. In June, a carload of cattle was shipped from Coronation to Moose Jaw. This shipment was traced by Constable Curry, who found that fifteen head had been sold at Moose Jaw stock yards by Fred Morgan, a well-to-do rancher in the Castor district. These were identified as cattle that had been stolen in the neighborhood of Fleetwood and Castor.

Morgan was arrested and brought to Red Deer, where he confessed to the crime. He was arrested and brother-in-law, Marvin Carter, and two other ranchers, Hans Jepson and Shirley Browner in the transaction. The men were arrested and brought here. Carter subsequently confessed to Inspector Fisher of the A.P.P. and Crown Prosecutor Quigg. Carter confessed Morgan's story of the murder. Browner being implicated in the matter.

The accused were arraigned before Magistrate Lawrence in the police court and pleaded not guilty. Morgan and Carter were committed to the highest court and entered a plea of guilty. Jepson and Browner were admitted to bail for \$10,000 each and are to appear for preliminary hearing at a later date.

On Aug. 4, the men accused of the theft appear to be all well-to-do ranchers and their operations seem to rival in some ways the methods of the Shearman & Bros., who caused so much stir in police circles during the past year. It seemed to be their plan to pick up three or four head wherever it was convenient to do so, and drive them away for shipment. It was something much more extensive than the old plan of killing a critter here and there. It is alleged that the shipment to Moose Jaw brought them in about \$700 even at the present low price of

WEDDING BELLS
RIVERS-PETERSON

At the Peterson home in West Park, yesterday afternoon, a popular young couple, Miss Signa Elvira Petersorsdotter and Elmer Elvira were united in the holy sacrament of matrimony. The ceremony was held in the home of the bride, which was prettily decorated and the ceremony was performed under a beautiful arch of cut flowers. The bride wore a charming white dress, travelling suit of navy blue, frock and black picture hat, carrying bouquet of white carnations. In addition to the members of the family, the following were present: Mrs. Lethbridge, Misses Ruth and Elvira Peterson, Edmonton, sisters of the bride, were in attendance; also Mr. and Mrs. J. H. Peterson, Edmonton, Rev. and Mrs. Hasselander, Mr. and Mrs. C. T. Elme and Mr. and Mrs. F. H. Tullman, Red Deer. The bride was escorted by her brother, Elmer Peterson, while C. T. Elme supported the groom. The groom's gift to the bride was a cabinet of silver, and the

After the ceremony, a dainty buffet luncheon was served, and the party proceeded to the station, the cars being adorned with a liberal supply of old boots and various other decorations. The happy couple left amid showers of rice and confetti on the afternoon train to spend a week or so at Banff, after which they will take up their residence in West Park.

IDLE THOUGHTS OF A BUSY FARMER

So the farmers have swept the political board and are in a position to form a U.F.A. government. We will now see a Commander-in-Chief Woods, who sat back and allowed his henchmen to remove the cheaters from Premier Stewart's store and forward and assume command and control of said cheaters. There is nothing like keeping off a road until you know the other fellows have filled the middle and got the highway graded, gravelled and rolled. There is one little point about these prospective U.F.A. legislators that I can't come at, and I don't see how they can, either. If they are honest men and women. They are going to Edmonton to legislate for the Province for all kinds and conditions of people. Yet they have all signed agreements to legislate for the class that elected them, and as soon as that class is dissatisfied with their performance they will quit. So far so good. Now, before taking their seats as legislators, each and all of these U.F.A. members elect will have to take an oath that they will legislate for the benefit of all, irrespective of class. How are they going to do this, when they have already signed up to legislate for one class? Either they are fooling the electors or taking a false oath.

This recall that the U.F.A. talk much about is the greatest "bull" I ever heard of. Anyone who has lived among a bunch of farmers knows that all you have to do is to come round with a petition and ask them to sign. Nine out of ten will sign without looking at the petition. How easy for any sorehead to get up a recall petition, go round and get it signed up, and dump it on the sitting member. As per agreement, that person would have to resign, as a majority of the electors had signed a recall.

It is generally expected that a candidate for election will run strong in his home town. We notice the member elect for Lacombe did not run in his home town. In the house town of Aliz, only 17 votes were recorded for the U.F.A., while the Liberal candidate received somewhere round 150. The Liberal representative took a big majority in his home town of Lacombe. We noticed by the returns that the farther you got from Aliz the larger the majority for the U.F.A. candidate. This shows that a prophet is not without honor save in his own country.

The farmers have heard so much of the power of combination and what they can do if they get together that lots of them have the idea that all that is necessary to bring the millennium is a legislature of farmer representatives. We have a bunch here who never heard of McKenzie King, John A. McDonald, the N.E. who the U.F.A. put the kibosh on the pipe line, the rubber bottoms of the U.F.A. grain elevators are all Greek to them and unintelligible. They know nothing of the Grain Commission or why the Grer applied for an injunction to stop investigation; yet were you to erect a secret latrine and tell them that was a U.F.A. candidate for legislative honors, they would vote for it without a murmur.

The average farmer is about the easiest sucker to fill up with bunk if you only have a gib tongue and lots of gall. In pre-war days we were inundated with so-called Socialist agitators. These guys would come around and fill the haystacks full of their wrongs and the inequities of the wealthy. Then they would proceed to show how the universe should be run and universal happiness and contentment reign. The fact that every one of them had failed in his own line of business and was stumbling the country as the easiest way to live never seemed to give these agriculturalists pause. That a man who could not run his own business might fail to regulate the universe never seemed to dawn on them. They would attend these meetings, gaze and swallow all the "bull" then flip in their jeans for a contribution to the "good cause." As far as my knowledge goes, it is much the same with the U.F.A. organizers, those men who went round organizing the U.F.A. political campaign seemed generally to have made a mess of farming and were taking pay as organizers because they couldn't make a living of their farms.

I knew a farmer who made enough by writing articles in the agricultural papers to pay his hired help. Yet he was a joke in his "old country." None of his men ever paid any attention to his orders. Had they done so nothing would have been accomplished, as he would order and counter-order fifty times in one day. Yet away from home he was looked on as a great authority on agriculture. Some 20 or 25 years ago, the Ontario government offered a prize for the best essay on how to create a new breed of wheat. The man who won the prize owned and operated the dirtiest farm in the county of Bruce. He had grain and theories that looked good on paper, but his practice didn't demonstrate them.

So ends the lesson.

EXAMINER'S REVIEW OF PROVINCIAL MARKETS

CATTLE—There is a continuation of the decline in cattle prices at Calgary, notwithstanding very light receipts, and all beef from 50c to 75c lower. Choice steers, \$4.50 to \$5.00; good, 4.00 to 4.50; medium, 3.50 to 3.75; common, 2.00 to 3.25. Choice cows, 3.50 to 4.00; good, 3.00 to 3.50; medium, 2.50 to 3.00; common, 2.00 to 2.50; canners, 1.50 to 2.00. No bulls offered to make a market; top probably 2.50. Calves lower, with best 4.50 to 5.00; stocker heifers lower, 2.50 to 3.00; stocker heifers lower, 2.00 to 2.50; cows, 1.00 to 3.00.

Few steers have been selling at over 5.00 at Edmonton, though extra ones would bring more; tops are quoted 5.25 to 6.00; good, 4.50 to 5.25; medium, 3.50 to 4.50; common, 3.00 to 3.50. Choice cows, 4.00 to 4.50; good, 3.50 to 4.00; medium, 2.50 to 3.00; common, 2.00 to 2.50; canners, 1.50 to 2.00. Very few bulls offered, best around 2.50, down to 1.00. Calves lower, with tops 5.00 to 5.50; common, 4.00 to 5.00. Stockers and feeders not in much demand, with good steers, 2.50 to 3.00; stockers, 2.00 to 2.50. Stocker heifers, 2.00 to 2.50; stocker cows, 2.00 to 2.50.

HOGS—Calgary market, steady all week, with larger receipts, and sales 14.75 to 15.00. Overnight receipts 15.00 today. 15.00. Hogs have been advancing at Edmonton also, and sales during the week 14.75 to 15.00, which was made on Thursday.

SHEEP—Very few butcher sheep sold during the week at Calgary; a few lambs at 8.00 to 9.00; wethers probably 4.50 to 7.50; ewes, 5.00 to 6.50. Lower prices on sheep at Edmonton, with quite a number on hand; lambs, 7.50 to 9.00; wethers, 6.00 to 7.00; ewes, 4.00 to 5.00.

GRAIN—Material improvement has been shown in crops throughout southern and central Alberta during the past week; and although it is too early to get optimistic, indications are certainly much better. Northern crop and north-central district are good to splendid. Markets have been fairly steady, but fluctuations are natural in this critical time.

PRODUCE—Eggs reduced to \$9.50 and 9.60, and likely to go lower; poor quality receipts holding up well. Cream receipts resulting in accumulation of No. 2 eggs at too high price, which market cannot absorb and unit for storage. Creamery butter slightly weaker in tone, though cartons unchanged at 38c to 39c. Dairy somewhat better; fancy up to 30c; No. 1, 28c to 29c; No. 2, 15c to 16c; No. 3, 11c to 15c. Poultry receipts larger and market weaker on broilers, now 22c to 25c; hens, 16c to 18c; roosters, 16c to 18c; market due for decline; some dealers now grading fowl into three and four-pound classes. New crop potatoes not moving in quantity yet.

Dairy butter reported better in Edmonton, with prices up to 20c. Creamery butter in cartons, 38c to 40c; car lot shipments being made east and west. Cream receipts holding up well. Some 20 or 25 years ago, the Ontario government offered a prize for the best essay on how to create a new breed of wheat. The man who won the prize owned and operated the dirtiest farm in the county of Bruce. He had grain and theories that looked good on paper, but his practice didn't demonstrate them.

HAY—Market showing strength.

with upland at country points worth around \$16.00; timothy, \$24.00. **HIDES**—U.S. tariff bill as finally passed dropped duty on hides, which continue to be admitted free. Market still very weak.

CLAIM LUMBER IS NOW SELLING AT LOWEST PRICE

Winnipeg, July 29.—Lumber is being sold at less than cost in Canada this summer, and has reached its "rock bottom" price, according to lumber men here. "Lumber which sold for \$25 a thousand before the war, sold for \$25 during the war, and is now \$23," one retailer declared.

"At this price every thousand sold is a loss in the seller. Practically all lumber is cut by the mills who do not log their own timber," he continued.

"The mills buy logs at auction, and the present prices to the loggers run \$14 a thousand, out of which is to come the logger's royalty fees, cost of cutting and profit. The mill cuts the logs, stacks timber to dry and loads for shipment. The cost of freight from British Columbia to Winnipeg is \$18.50 a thousand. Thus the mills are paying \$32.50 on every thousand feet of lumber, and receiving 50 cents more for it from the consumer. This 50 cents is supposed to cover cost of cutting, stacking and loading, risk, and profit on the investment."

EFFICIENCY

"Sambo, I don't understand how you can do all your work so quickly and so well."

"I'll tell you how this, boss. I sticks de match ob enthusiasm to de fuse of energy—and jes naturally explodes, I does."

TOO MUCH COMPETITION
She (to young poet)—"How much do you get for your poems, Charlie?"
Charlie (with pride)—"I have had half a guinea."

She—"Well, isn't that very little?"
I was reading that Sir Walter Scott got \$200 for one of his."

Charlie—"Yes, but writing poetry isn't the business it was before the war. There's too much competition."

"WE WANT YOUR BUSINESS"

President
H. W. Wood
Of The U.F.A.
Has Stated:

"What the people want is self-government through their elected representatives." This can only be secured by every farmer taking a personal interest in the Farmers' Government. President Wood wants the farmers themselves to operate the political machinery. In order to do this they must be in intimate touch with the Government. This intimate touch can be secured only by subscribing for the Edmonton Journal. Don't rely on hearsay. Read for yourselves what the government is doing.

**WORLD'S CROPS
SHOW DECREASE
IN ALL LINES**

International Institute of Agriculture
Reviews Situation in All Countries

Ottawa, July 23.—A cablegram re-
ceived from the International Institute
of Agriculture gives the following
summary of crop production for
1921, corresponding figures for last
year being given in parentheses:
Wheat—Spain, 1,450,000 bushels
(1,380,000); Hungary, 41,887,000
bushels (20,139,000). The total pro-
duction of these two countries in-
cluding Belgium, Bulgaria, Finland,
Albania-Lorraine, Greece, Canada, Uni-
ted States, India, Japan, Algeria, Mor-
occo and Tunis, is 1,120,000,000
bushels, compared with
1,000,000,000 bushels last year. This year's
total production is 87.6 per cent of the
two previous years.
Barley—Spain, 27,754,000 bushels (27,
830,000); Hungary, 18,936,000 bushels
(16,520,000). Total of these two coun-
tries and including Belgium, Bulgaria,
Finland, Albania-Lorraine, Greece, Can-
ada and the United States, 172,383,000
bushels (164,865,000).
Rye—Spain, 92,180,000 bushels
(87,830,000); Hungary, 1,238,000,000
bushels (1,652,000,000). Total of these
two countries and including Belgium,
Bulgaria, Finland, Albania-Lorraine,
Greece, Canada and the United States,
1,588,000,000 bushels (2,142,000,000).
The grand total for wheat, rye, barley
and oats taken together is 4,255,
000,000 bushels, compared with
4,555,000,000 bushels last year, a decrease
of 302,000,000 bushels.

**RUTLEDGE COMMITTED
TO TRIAL FOR MURDER**

INNISFAIR FARMER NOT YET RE-
COVERED FROM BURNS RE-
CEIVED WHEN WIFE DIED

Innisfair, July 23.—With his arms,
face and upper part of his body
swathed in bandages, Joseph John
Rutledge, an Innisfair farmer, lay in
his bed in the Innisfair hospital on
Thursday afternoon and listened in-
tently while Magistrate McKay com-
mitted him for trial on charge of
being responsible for the death of his
wife and four young children, who
were burned to death when fire de-
stroyed his farmhouse on June 15th.
Damaging evidence against Rutledge
was given by his wife's sister,
Vera Isabel Shaw, who claimed in a
previous statement that Rutledge was
the father of her child and that do-
mestic troubles led to the burning of
the Rutledge home two months ago.
Her evidence corresponded in every
detail to the statement made by her
to police officers immediately follow-
ing the fire.
Now that Rutledge has been com-
mitted, a police officer will take up
watching by the bedside in Innisfair
until he is well enough to be removed
to the Fort Saskatchewan jail, where
he will await trial.
He will be tried at Red Deer during
the September assizes. It is not
thought that bail will be fixed.

**CANNING TIME
HAS ARRIVED**

Now that fruit is becoming plenti-
ful, housewives are naturally thinking
of preserving, and the following re-
cipes have been found to give general
satisfaction wherever they have been
used.

Making the syrup: Weigh out sugar
to equal one-third of the weight of
the fruit, and for each pound of sugar
add three cups of water; boil sugar
and water to make a thin syrup.

Preparing the fruit: Large fruits,
such as plums, prunes, apricots and
peaches, should be washed, but berries
should not. Have plums, prunes
and apricots to remove the stones.
Pack fruit tightly in sterilized jars.
Set the jars in a pan of hot water and
fill them quite full with syrup; screw
or place covers on loosely. Place jars
in warm water up to the neck, in
kettle or boiler stove and bring gradu-
ally to the boil. For berries of any
kind and cherries, boil 10 to 15 min-
utes; for large fruits, boil 20 minutes;
then remove jars from kettle, add
boiling syrup to fill, and screw lids
down tightly.

JAM MAKING
The method given below is very
simple and at the same time preserves
the natural flavor and color of the
fruit much better than other com-
monly used methods.
Use only fruit that is fresh, firm, of
good quality and not over-ripe.
The various fruits are to be pre-
pared as required; strawberries are to
be hulled; raspberries, loganberries,
blackberries and blueberries re-
quire no special preparation. Have
apricots, plums and prunes and re-
move the stones. Apricot seeds
added to apricot jam give an agree-
able nutty flavor.

VERY HEADSTRONG

(Winnipeg Tribune.)
The farmers of Alberta have consis-
tently and persistently refused to fol-
low the advice of those to whom their
victory at the polls was grievous and
shocking.

To begin with, they were reported
as being about to ask Premier Stew-
art to remain in office and direct their
policy. The implication was that
their position was so accidental and
their incapacity so abnormal, that
they could not do anything better.
It required an emphatic disclaimer
from Mr. Stewart himself to finally
dispel the rumor that they had
been begging him to save them from
the fatal consequences of their vic-
tory over himself.

It was then pointed out that Mr. H.
Wood, being the man who had got
the farmers into the mess of victory
was the man to get them out of it,
and that if he did not accept the
office of premier, he would be branded
forever as a man who definitely re-
fuses to play the game of politics
according to rules laid down by his
opponents.
Mr. Wood does not seem to have

THE NEWS, RED DEER, ALBERTA

over played the game so as to permit
his opponents to win if he could help
it, and he seemed to have had some-
thing in mind in discrediting some of
his would-be friends, from opponents, for
which he is not altogether to be
blamed.

The farmers in Alberta have upset
some political apple carts, but they
allow the politicians to either in-
fluence their course or stand in their
way, and they are now in possession of
a government after their own
plans and their constitutional privi-
leges.

Furthermore, they are also entitled
to a square deal from the rest of the
country. The farmers of Alberta, and
it is by them that they will be judged
and not by prejudice. They may rest
assured of a fair field and no favor
to make good, or fall as lies within
their own power.

**SYLVAN LAKE
CHAUTAUQUA**

Will be Held on August 3-5
—A Splendid Programme

The Sylvan Lake people, following
their programme providing high
class entertainment for their summer
visitors and residents of the district,
have arranged for a big three-day
Chautauqua on August 3, 4 and 5. The
Dominion Chautauqua service will
address the programme and the citi-
zens of Red Deer and district are well
acquainted with the high standard of
entertainment provided by the Domi-
nion organization.

Leaders of Thought
The Chautauqua programme this
year contains the names of widely re-
cognized thinkers, writers and speak-
ers. As the responsible citizens of
many cities look back on Chautauqua
after it has passed and recall the ad-
dresses of Dr. Walter Jones, the fiery
Welsh orator from Montreal, Captain
Stanley Nelson, Daney, and the well-
known Dr. William E. Bohm, they will
endorse the exclamation of a well-
known business man of Moosejaw after
he heard: "This has been one of the
hundreds of dollars to me and thou-
sands of dollars to the city."

A day that will be remembered a
long time will be the second day of
Chautauqua. Thursday, the evening
concert, supported by the Anderson
Quartet, is the special feature. Be-
cause of the reputation of the or-
chestra as well as the artistry of the
players, it will be called Music Day.
It is of little use to repeat a review
of Liane's work to the people of
Canada. His Indian melodies, which
the orchestra will feature are well
known to all Canadian music students.

Dr. Wm. E. Bohm
Setting forth the elemental "Heart
of Chautauqua," Dr. Bohm, an educator
of wide recognition, presents his lecture
on "The Restless Tide," on the first
evening after a brief musical prelude
by Sundberg. The first day of Chautau-
qua, the real mystery programme of De Jan
after Dr. Bohm's lecture.

**THE BOY SCOUTS
AT SYLVAN LAKE**

The Red Deer Boy Scouts Corps, un-
der the charge of Scoutmaster H. B.
Callender, Deputy Scoutmaster D. P.
Muir, and Mr. Wm. Gibbs are having
a fine time at camp of Mr. Fancher's
farm at Sylvan Lake. They went out
on Friday in autos through the coun-
try of a number of auto owners, and
will continue until Tuesday. The daily
routine is as follows:

6:30 Roll call and physical drill.
7:00 Flag raising, morning prayer,
roll call and physical drill.
8:00 Breakfast.
8:45 Roll blankets, clean camp.
9:15 Tent inspection.
9:30 Scout practice.
11:30 Bathing parade.
12:15 Dinner.
2:00 Games and rest.
4:45 Bathing parade.
5:30 Tea.
6:15 Tidy camp.
8:30 Lower flag, roll call, camp fire.
9:45 Turn in.
10:00 Silence for tent prayers.
10:00 Lights out.

The various patrols take a day each
in turn in getting wood, keeping up the
cook-fire, serving the meals, washing
the dishes, and attending to the cook-
house chores. Looking after the tents,
getting meals, two bathing periods,
Scout practice, games, camp fire and
stories made up a happy day. The
Scoutmaster has a First Aid outfit
which comes in handy for cuts, scratches,
etc., etc. He had having a man
through one heel. A route march of
over three miles was taken on Satur-
day morning to Sylvan Lake village,
and the boys presented a very smart
appearance, and the Bugle band did
well. The boys slept well that night.
On Sunday morning an open-air
church service was conducted by Mr.
Callender. Rev. W. G. Brown, the
next Sunday morning service.

The parents of the boys keenly ap-
preciate the instruction and training
during the winter of Mr. Callender,
Mr. Muir and their assistants,
culminating now in this delightful
outing at Sylvan Lake, under ad-
equate supervision. The Scoutmaster
and Assistant Scoutmaster are giv-
ing their own holidays to be with
the boys and give them all a good time.
The following are the boys in camp:
Out Patrol—Patrol Leader Bruce
Springfield, Second Scout W. Lovess,
Scouts C. W. W. S. Wolliver, D. Bus-
sell, M. Wilson, Bugler D. Collison.
Lion Patrol—Patrol Leader R. Hogg,
Scout S. H. Hogg, Scouts S.
Oulton, L. Gatz, J. B. Balford, J. Reid,
R. Hoggworth.
Beaver Patrol—Patrol Leader S.
Gatz, Second Scout L. Searns,
Scouts A. Lund, W. George, W. Hogg,
H. Wolliver, C. Wright.
Fox Patrol—Patrol Leader G. Jones,
Second Scout K. Caracand, Scouts
H. Stephenson, F. Balford, P. Payne.

J. Houghland, O. Richards,
Wolf Patrol—Patrol Leader N. Bost-
well, Second Scout S. Hogg, Scouts
R. Lord, L. Wolliver, J. McFarlane,
N. Parks, H. Ellenwood,
Bear Patrol—Patrol Leader E. Wood,
Scouts L. Martin, J. Teasdale, T. Gibbs,
E. Michener, D. Muir, T. Moyes.

CLEARVIEW

The following pupils have been pro-
moted in Clearview school; names in
order of merit:
Grade VI to VII—Garnet Trimble,
Eric Goodacre, Bonnie Comfort, Earl
Gatz, V. L. Parker, Clark Houghton,
Charles Blair.
Grade V to VI—Hazel Gatz, Dorothy
Goodacre, Kenneth Blair.
Grade IV to V—Sheldon Comfort,
Joyce Blair, Kathleen Austin.

M. J. GIBSON, Teacher.

**AUCTION SALE OF MINING TIMBER
IN THE CLEARWATER FOREST
RESERVE**

The right to cut mining tim-
ber on a tract of land to be known as
Timber Sale No. 104 will be offered at
public auction at a rate per thousand
lineal feet to MINING OPERATORS
ONLY.

The sale will be held at the office of
the Forest Supervisor of the Clear-
water Forest Reserve, Rocky Moun-
tain House, Alberta, at 2 o'clock p.m.
on Monday, the 15th day of August,
1921.

The timber to be cut is located on
the north half of sec. 9 and all of sec-
tions 7, 8, 17, and 19, township 40,
range 16, west of the 6th meridian.
There is estimated to be approxi-
mately 2,750,000 lineal feet of mining
timber to be removed from the sale
area. The upset price of this mater-
ial is \$4.75 per thousand lineal feet,
and a flat rate of 60 cents per thou-
sand lineal feet will be charged for all
logging cut on the sale area.

The purchaser will be allowed until the 1st
of May, 1924, to cut and remove the
timber. Only such timber within the
area described as is designated for re-

moval will be allowed to be cut, and
all timber so designated must be cut
and removed from the sale area. The
brush and other debris resulting from
the operations must be topped, piled,
and burned in accordance with the
instructions, and to the satisfaction of
the Forest Officer.

Each bidder will be required to de-
posit with the officer conducting the
sale the sum of \$100.00 in cash or
bank draft or accepted cheque, main-
payable to the Deputy Minister of the
Interior before being allowed to bid
at the sale. The sale will be awarded
on the basis of the amount offered per
thousand lineal feet for the mining
timber on the sale area. The Depart-
ment does not bind itself to accept the
highest or any bid. The deposits of
the unsuccessful bidders will be re-
turned to them at the close of the
sale, while that of the successful
bidder will be retained as a guarantee
deposit to be forfeited in case of
failure to comply with the conditions
of the sale or the Forest Reserve
Regulations.

Full particulars, including detailed
regulations governing the sale may be
obtained from the Forest Supervisor
of the Clearwater Forest Reserve,
Rocky Mountain House, Alberta, or
the District Forest Inspector, Calgary.

W. W. CORY, C. M. G.,
Deputy Minister of the Interior,
Department of the Interior,
Ottawa, July 23, 1921.

**AUCTION SALE OF MINING TIMBER
IN THE CLEARWATER FOREST
RESERVE**

The right to cut mining tim-
ber on a tract of land to be known as
Timber Sale No. 105 will be offered at
public auction at a rate per thousand
lineal feet to MINING OPERATORS
ONLY.

The sale will be held at the office of
the Forest Supervisor of the Clear-
water Forest Reserve, Rocky Moun-
tain House, Alberta, at 2 o'clock
p.m. on Monday, the 15th day of August,
1921.

The timber to be cut is located on
the south-east quarter of section 26,

legal subdivisions 3, 4, 5, 6, 7, 8, 9, 10,
11, and 12 of section 25, all of section
26, except legal subdivisions 15 and 16,
the west half of section 24, legal sub-
divisions 9, 10, 13, 14, 15, and 16 of
section 14, the north-west quarter of
section 13 and legal subdivisions 1, 8,
9 and 16 of section 22, all in town-
ship 40, range 15, west of the 6th
meridian.

There is estimated to be approxi-
mately 8,500,000 lineal feet of mining
timber to be removed from the sale
area. The upset price of this mater-
ial is \$4.75 per thousand lineal feet,
and a flat rate of 60 cents per thou-
sand lineal feet will be charged for all
logging cut on the sale area. The
purchaser will be allowed until the 1st
of May, 1928, to cut and remove the
timber. Only such timber within the
area described as is designated for re-
moval will be allowed to be cut, and
all timber so designated must be cut
and removed from the sale area. The
brush and other debris resulting from
the operations must be topped, piled,
and burned in accordance with the
instructions, and to the satisfaction of
the Forest Officer.

Each bidder will be required to de-
posit with the officer conducting the
sale the sum of \$3,087.50 in cash or
bank draft or accepted cheque, main-
payable to the Deputy Minister of the
Interior before being allowed to bid
at the sale. The sale will be awarded
on the basis of the amount offered per
thousand lineal feet for the mining
timber on the sale area. The Depart-
ment does not bind itself to accept the
highest or any bid. The deposits of
the unsuccessful bidders will be re-
turned to them at the close of the
sale, while that of the successful
bidder will be retained as a guarantee
deposit to be forfeited in case of
failure to comply with the conditions
of the sale or the Forest Reserve
Regulations.

Full particulars, including detailed
regulations governing the sale may be
obtained from the Forest Supervisor
of the Clearwater Forest Reserve,
Rocky Mountain House, Alberta, or
the District Forest Inspector, Calgary.

W. W. CORY, C. M. G.,
Deputy Minister of the Interior,
Department of the Interior,
Ottawa, July 23, 1921.

Society Brand Clothes

**How will they look
6 months from now?**

That's a question you ought to ask yourself every time you buy
clothes.

When you buy here, though, you don't have to bother about it
We've taken care of that part for you in the clothes we sell.

Society Brand Clothes

look right all the time. The style, fit, and shapeliness are just as
evident after months of service as when you buy them.

It's because the style is expertly tailored into all-wool fabrics by
hand; trimmings and finish are of the kind that stand up under
any strain.

JACK FULTON
The Good Clothes Corner

FORDNEY TRIUMPHANT

(Winnipeg Tribune.)

The Fordney Bill has passed the House of Representatives and Congressmen Fordney has received an ovation as the author of this new measure in the policy of high protection. He will go down in history as the successor of McKinley, who either brought prosperity to the United States, or happened to have his name connected with a prosperity due to arrive in the natural course of events.

If the Fordney tariff does not have the effect it is presumed to be able to bring about, it will assuredly be blamed as well for many things for which it is not responsible. The popularity of Congressman Fordney rests upon a highly insecure foundation.

It is very difficult to have any sympathy with those who are whining over the effect of the Fordney tariff on Canada. They do not look reality in the face and confuse a temporary rearrangement with a real injury.

The new tariff affects \$175,000,000 of our export trade. More than half of this is trade in wheat and flour. Under the emergency tariff, U.S. millers are continuing to buy Canadian hard wheat. They must, or have their own export trade in flour. But let us say that the Fordney tariff prevents such importations.

As the same quantity of flour will continue to be used, our wheat will go as before to the points where it is milled, and the U.S. soft wheat will go also to these points to meet it. The United States can then be a great domestic consumption and compel its people to eat it, but it cannot do so for any others except those subject to its authority.

With meat, if there is a surplus here and a scarcity in the United

States, this would tend to supplant American packers' products with Canadian packers' products in the foreign market. Very considerable damage might be done to the livestock industry before the substitution took place, but the damage would be temporary, and the change finally result permanent.

There is hardly anything of importance exported from Canada to the United States which is not a raw material foreign United States industries and foreign trade, and the tariff

is not that we lose the materials, but that they feed Canadian industry and force the United States to pay for them. The tariff will also assist the depreciation of our money in discouraging the export of raw materials. We will, in a word, make the greatest mistake in the world if we attribute a great stretching of the share of depression which is uniform throughout the world, and do not set our own minds at rest by the uncertainties of industrial and fiscal independence which a high tariff against our raw materials naturally engenders.

INVENTORS OF COLD

Next time you eat ice cream, consider the debt you owe to Sambo Jackson, a negro pastry chef, who gave the world its first dish of ice cream 105 years ago this month.

For years, Sambo had a monopoly on the manufacture of ice cream, because he kept the process a closely guarded secret. All that is definitely known about his discovery is that it was an accident.

It might not be a bad idea to erect a monument somewhere in Canada. And, while about it, surround his black marble statue with effigies of the men who have in the other things that help make summer endurable—artificial ice, lemonade, refrigerators.

Although nature has produced ice for so many centuries, it is only recently that man has learned to cut it in winter and store it away in sawdust which, insulating, keeps out the heat and prevents thawing.

Yet as far back as the days of Nero, Roman slaves packed snow in underground pits and turned it into ice for summer use.

Dealers in ice and packed snow were common in France 1500 years ago. In 1799, ice cut from a pond in New York City was shipped by boat to Charleston, S.C. That was the beginning of a great ice export business.

In those days, artificial ice was not commercially practicable. Scientists had experimented for centuries to produce ice artificially, but the first patent for making artificial ice was not taken out until 1834 by John Gorrie, a doctor.

Charles Tellier, who died in 1913, was the inventor of artificial refrigeration. Without which the cities would find it very difficult to exist.

When he was 80 he said: "The advantage of poverty, are overrated. The rich declare that poverty brings out a man's good points. Well, so it does by the roots."

And Tellier knew what he was talking about. Deprived of the incalculable value of his invention to the world, he died in poverty.

Fans are ancient. All races have them. The cave man probably fanned himself in July with a dried palm leaf or a slab of bark.

Electric fans, without which you'd find summer harder to endure, were of slow evolution, many contributing. But they were made possible by Thomas Davenport, who in 1834, built the first rotary electric motor.

Lemonade alone, of the five great comforts of summer, has cannot be traced to any individual.

Lemons originally grew wild in India. Arabian sailors transplanted them in Asia. The Crusaders carried them into Europe nearly 1,000 years ago. Later, sailors brought them to this continent and planted them.

It has taken centuries, thousands of years, possibly millions, to put lemonade, ice cream, electric fans, artificial ice and refrigeration within reach of all.

What new devices for making summer more endurable will be discovered in the centuries that lie ahead?

THE WORLD HAS NEED OF EVERY TREE

The world has need of all the things of beauty that the summer brings—Pine and portulaca and wild rose.

The planet has so much of snow. The world has need of every rose. Wherever any traveller goes.

There are such scenes the weary mass of men in daily journey pass. The world has need of all its green.

There is such ray in every scene. Such shadows sunny hills between. The world has need of all its green.

So much of drab there is to see. Drab hills and drab humanity. The world has need of every tree.

—Douglas Malloch, the lumberman poet.

A TIMELY TALE

Old Sol, Idvory, the simp met me the other day and spring a new one on the simp—"When a bird hard ball stops rolling, what does it do?" I had to give up and the simp says—"It looks round."

LESLIEVILLE

July 25, 1921.

Crops are looking splendid. Roads all passable, dry and hard. Timothy stretching just fine. Great stretches of recently completed looking great the eyes on every hand.

Mr. Roddie & Son have opened their splendid new store and carry a large and varied stock of groceries, dry goods, hardware and farm implements. Both the butcher here, is up at Bingley this week taking charge of the store.

Miss Gerlie Riley is spending her vacation with her parents here.

Mr. A. McKinnon is making an addition to his house on every hand.

Johnnie's place is as popular (if not more so) than ever. Good music, good food, good taste and good company characterize all Johnnie's gatherings.

The railroad officials interviewed here Wednesday gave us fair promise as one could expect under existing circumstances, that an attempt would be made to put an agent here for a period of four months, at least. The earning capacity of the polo, they showed, fell far below the requirements of a point that could call for an agent. However, the officials were optimistic and gave every assurance that they would help what they could.

Be over at the picnic ground at two o'clock to-morrow, Saturday, and the Sunday School children make their picnic a success. You used to be a Sunday School child yourself.

M.D. OF GOLDEN WEST

The fifth regular meeting of the M.D. Council of Golden West, No. 371, was held in the municipal office at Sylvan Lake on July 25. The meeting opened at 1 o'clock, with all the members of the Council present. Minutes of last meeting read and approved.

The following letter was read: The Sec'y-Treas. M.D. No. 371, Sylvan Lake.

Dear Sir:—In answer to your letter of the 23rd ultimo, I am instructed to write to you to the effect that this Municipal District of Crown, No. 399, do intend to release that part of the district lying south of the Blindman river, in township 29, ranges 27 and 28, W. 4th. After inspection of the roads this spring it has been found that this said part of the district has roads which are far better than the average throughout the district, and the Council cannot see where the ratepayers have any legitimate kick.

Yours truly, E. WALTER SIMPSON, Sec'y-Treas. M.D. No. 399.

Moved by Councillor Rogers that the above letter be sent to the local press for publication. Carried.

A letter was read from the Secretary of M.D. No. 341, drawing the attention of the Council to a defective subdivision of 3-27-1-5, also stating that the roads there were in unsatisfactory condition. Councillor Olson, of Div. No. 2, promised to attend to the matter.

Letters under date of July 8 and 12, from the Deputy Minister of Lands and Municipal Affairs, regarding the petition of ratepayers to have that part of township 29 in ranges 27 and 28, W. 4th, and south of the Blindman river included in this Municipal District, were read.

Letters from Hugh J. Duffield and The Western Colonization Co. were also read.

The Red Deer Hospital advised that Mrs. T. J. Sills, of N.E. 24-27-1-5, was admitted as patient at the hospital on July 25. The Deputy Minister regarding the appointment of an auditor for the current year, J. Z. Welton received the appointment.

A petition was received from a number of ratepayers, asking that a road be opened on the blind line between Benito and Sylvan Lake. Moved by Councillor Stringer that the road be opened up for public traffic, and that \$25 per acre be paid for the land necessary to acquire for that purpose. Carried.

A letter covering statutory declaration was received from Mrs. Davis appealing from Wild Lands taxation for the year 1920, with respect to the N.E. 10-27-1-5, owned by Councillor Stringer that the Wild Lands taxes paid by Mrs. Davis for that year be refunded. Carried.

G. S. Warren, of Benito, asked that a road be opened up to allow him an outlet from his farm, the E.W. of 25-27-1-5. Councillor Johnson agreed to investigate the matter and report at the next meeting of Council.

Moved by Councillor Rogers that plans of road diversions on section 17-27-1-5, sections 25 and 15-28-2-4, and sections 28 and 15-28-1-5, be registered in the Land Titles Office, Edmonton. Carried.

Bills and paybooks presented, examined and found correct, were ordered to be paid.

Moved by Councillor Rogers that the next meeting of the Council be held on Saturday, August 27, at Sylvan Lake. Carried.

POULTRY KEEPING IN TOWN AND COUNTRY

Poultry Keeping in Town and Country, a bulletin recently issued by the Department of Agriculture at Ottawa, compiled by the Dominion Poultry Husbandman, deals with every form of poultry keeping, either for home or private consumption or for marketing. It tells how a commencement may be made in a cheap, easy but encouraging way, and the equipment required. It explains the value of feeds, and how the birds should be treated in summer and in winter. It tells how to select the best individuals and how to care, feed and house the flock, how to deal with the day-old chicks, what method should be followed in hatching and rearing, and the various methods of marketing and storing. A chapter is devoted to the essentials of success wherein the value of economy and cleanliness is especially stressed. Turkeys, geese, ducks, guinea fowls and pigeons are included in the term "poultry," and their care and management dealt with. Numerous illustrations of types, houses, runs, methods of packing and shipping, both birds and eggs, are added to the value and instructiveness of the bulletin.

THEN THERE WAS TROUBLE "Robert," said his spouse, "father writes me that he is going to get a typewriter. What's the best kind, do you think?"

"Well," he replied unthinkingly, "I like them about twenty, with soft brown eyes."—Boston Transcript.

COULD BEAT HANDS SHUCKING HIS CORN

At Least, J. A. White Would Bet So. After Being Relieved of Dyspepsia by Tanlac.

"My wife and myself have had stomach trouble," says Mr. J. A. White, residing on the Leostown Pike, F.E.D. No. 6, near Lexington, Ky., and have both been nervous and run down."

"We could not see anything without suffering afterwards and could not sleep at night. We were regular nervous dyspeptics. We tried many remedies without permanent benefit until we heard of Tanlac. I got this medicine and began using it. We noticed immediate results. We are both greatly improved by Tanlac. We give credit for the change of health to Tanlac. It is a remarkable medicine."

"I personally feel so good that I old my hands a day or two ago that I could beat any of them shucking corn. I meant it, and believe I could have beat 'em all."

Of all the maladies that afflict humanity chronic dyspepsia, such as Mr. and Mrs. White suffered from, is probably the most prevalent, and hours might be consumed in describing the sufferings, mental and bodily, of the victims of chronic dyspepsia.

A morbid, unusual, whimsical and melancholy condition of the mind, aside from every physical suffering, is the usual state of the average dyspeptic, and life seems scarcely worth the living.

Tanlac, the celebrated medicine, was designed especially for overcoming this distressing condition and millions of people have taken it with the most astonishing and gratifying results. It seems to go straight to the spot, toning up and invigorating every organ of the body.

FOREST RESERVES BELONG TO THE PEOPLE

The Dominion forest reserves in the Prairie Provinces and Railway Belt of British Columbia are located on lands which may arise in the life of the people. They are to be used for the benefit of the people and should be so handled as to provide for the future, both now and in the future, for the benefit of the people.

The forest reserves are not reserved for the timber trade, but for the benefit of the people. They are to be used for the benefit of the people and should be so handled as to provide for the future, both now and in the future, for the benefit of the people.

The forest reserves are not reserved for the timber trade, but for the benefit of the people. They are to be used for the benefit of the people and should be so handled as to provide for the future, both now and in the future, for the benefit of the people.

The forest reserves are not reserved for the timber trade, but for the benefit of the people. They are to be used for the benefit of the people and should be so handled as to provide for the future, both now and in the future, for the benefit of the people.

The forest reserves are not reserved for the timber trade, but for the benefit of the people. They are to be used for the benefit of the people and should be so handled as to provide for the future, both now and in the future, for the benefit of the people.

What is a Recommendation Worth?

That depends very much upon who gives it. For instance, we recommend Ames Holden "Auto-Shoes" as the cheapest mileage you can buy.

And we know a lot about tires. We have to in our business.

Hence our recommendation should carry some weight apart from the fact that we are benefiting to some extent by your custom.

We know that if you buy one, you will buy again—because you will find that our recommendation saves you money on mileage.

We will give you a guarantee with Ames Holden "Auto-Shoes" too—a guarantee that protects you against any defect in material or workmanship which may arise in the life of the tire. And we will get you an adjustment on that basis should necessity arise, without trouble or delay. Drop in and let us show you Ames Holden "Auto-Shoes" to-day if you can.

Red Deer - Alberta

FARM WANTED—Will rent farm with about 30 acres under cultivation; must have good buildings for family—Apply J. C. P. O. Box 370, Red Deer. July 27, 3w.

LOST—Between Michener Hill and North Red Deer, either on 1st St. South or Gaetz Ave. 1 automobile tire. Finder please notify News Office. Reward. July 27, 3w.

Miss Minnie Howson, Edmonton, is spending a couple of weeks visiting her home here.

W. V. Davies left on Sunday with his brother-in-law from Edmonton for a motor trip to the coast.

Rev. W. G. Brown went out to Sylvan Lake last week with his family to spend their vacation there.

The editor and his family are vacationing at the Dewdney cottage, on the north shore of Sylvan Lake.

Mr. and Mrs. Manning, of Delburne, are enjoying a fine holiday at the Gover cottage, Sylvan Lake.

Mr. and Mrs. A. Walker and family have returned to Ponahol, after a several weeks' outing at the Lake.

It is rumored that Bruce Cox, well-known ex-soldier of Red Deer, was married recently at Chilliwack, B.C.

Mr. A. Wood, of Ponahol, has joined his family at the Dewdney cottage, Sylvan Lake, for a couple of weeks.

Mrs. W. M. Beatty, of Calgary, is visiting at the Wright cottage at the Lake. Mr. Beatty will be up next week-end.

Joe Cole is spending a few days at Banff with Inspector and Mrs. McLean, who have taken a cottage there for the holidays.

Miss Mildred Pike returned to Calgary on Monday, after two weeks spent with her people here and in Edmonton.

Mr. and Mrs. H. Maunell left on Monday for a motor trip to Calgary, Macleod and other southern Alberta points.

Boys and Gladys, old straw hat delivered to the Rex Theatre before Saturday noon will receive a free ticket to the matinee.

The heavy rains at the Lake on Sunday evening caused some inconvenience to motorists returning from their Sunday outing.

Frank Feeney, who had been employed by the Cunningham Meat Market, left on Sunday for his home near Leduc.

It is reported that P.S. Inspector Maclean's family will make their home in Red Deer and will reside in the Bryan house, Parkvale.

Rev. F. W. Locke, Methodist pastor at Clarendon, is spending a couple of weeks visiting old friends and acquaintances around Red Deer.

Everett Foreman left on Saturday with his mother for Spokane, Wash. Several of the family are living there now; Mrs. Foreman and Everett may decide to remain there also.

Mr. and Mrs. McNeill, Calgary, spent the weekend in the city. Mr. McNeill is better known to the citizens of Red Deer as Nurse Martin; his friends were glad to see her again.

Dr. Eber Crumney, Pastor of the Leonard Gaetz Memorial Methodist Church, left on Monday for his vacation. He has consented to give a series of lectures at Regina College next week in connection with the summer session for ministers. After finishing this engagement, Dr. Crumney intends to spend the balance of the month at the coast.

Commissioner Stephenson and J. R. McClure had a very enjoyable fishing trip to the west last week. It is reported that they had the game down to a science. W. J. Botterill was out organizing polls for the forthcoming vote on the Municipal Hospital question and happened on the worthy fishermen. They offered him a good lunch if he would wait half an hour, and, sure enough, they went out and caught as fine a bunch of trout as one could wish to see. No guesswork, fishing, with them; just science.

Mr. and Mrs. W. F. Kennedy are visiting relatives near Edmonton.

This is baseball week. Ponoka will be here Thursday evening.

The Poplar Grove U.P.A. Local will hold their next regular meeting in the Poplar Ridge schoolhouse on Tuesday evening, August 9th.

Miss Petra Sater, a pupil of Mary LeBannier's, who took the primary theory and harmony course with the Toronto Conservatory, has passed her examination with first-class honors, receiving 84 marks.

We are pleased to be able to report that Mrs. L. M. Doughty is making satisfactory progress at the Memorial Hospital, and that good hopes are held out for her recovery.

IN MEMORIAM

"I presume you carry some sort of memento in that pocket you're wearing."

"Yes. A lock of my husband's hair."

"But your husband is still alive!"

"True; but his hair is gone."

BOYS AND GIRLS! Every old straw hat delivered to the Rex Theatre before Saturday noon will receive a free ticket to the matinee.

FOR SALE—Pen of purchased White Wyandottes, 10 hens and a cock; all first-class birds; most of them one year old. Apply to E. R. HILL, Red Deer.

WANTED—A first class teacher for principal of the two-room school at Sylvan Lake. Grades up to 11. Good boarding arrangements can be made. Salary of \$1500.00 will be paid if qualifications are satisfactory. Apply with references to A. McEachell, Secretary S. D. 2595, Sylvan Lake, July 27, 2w.

LEFT IN C.P.R. LAVATORY, Red Deer, Tuesday, July 19th, two rings, plain wedding ring (indistinct initials W. M.), and amethyst birthstone ring. Reward on returning to Mrs. H. Morrison, Box 162, Macleod, or News Office, Red Deer, July 20, 3w.

TO LET—Furnished suite, suitable for light housekeeping—Apply Geo. Hopworth, 3rd Street North.

HOUSE TO LET—6 rooms, furnished, for month of July and August. Apply to Mrs. J. E. Robertson, 175, 4th Street N.E. June 8, 1t.

Wanted, Hatings of Farms, City Prep, arty, Cars, Machinery, etc.

NOTICE TO CREDITORS OF JULIA ARMELINE TANCHE, Deceased.

TAKE NOTICE that all creditors or other persons having claims against the estate of the above named deceased, who died at Sylvan Lake, Alberta, on November 5th, 1916, are required to file particulars of their claims, together with affidavit verifying same, with Jean Rene Tanche of Sylvan Lake, Alberta, or with the undersigned on or before the 15th day of September, 1921, after which date the administrator will be at liberty to distribute the assets of the said deceased amongst the parties entitled thereto, having regard only to the claims of which he then has notice.

GERALD V. PELTON, 425 Taylor Building, Edmonton. Solicitor for Administrator.

TENDERS

Tenders will be received by the undersigned for the filling in of the grounds of the Public Building at Red Deer, in accordance with the following specification:

The excavation to be filled in with earth, gravel or clean rubbish to a level 6 inches below grade of lawn; the whole to be thoroughly consolidated as the work proceeds. Finish with a top dressing of black loam, seeded with lawn grass and rolled with a heavy roller; the finished level will be kept sufficiently high to allow for settlement to the general level of the remainder of the grounds.

The contractor shall arrange for the access of his teams to the excavation and make good the fence after completion of the work. Any damage done to the surrounding grounds by the teaming shall be carefully filled in with best loam and seeded with lawn seed.

J. M. STEVENSON, District Resident Architect, D.E.W. Calgary.

TO-NIGHT & THURSDAY

The Season's Gigantic Success
"HALF A CHANCE"

WITH

Mahlon Hamilton & Lillian Rich

A drama of a man's man, who, buffeted by fate, lashed by defeat, came back from the depths.

He has been a prize fighter. Framed by the strong arm of the law he escaped on his way to prison.

He shipped as a stoker, saved a girl in the shipwreck and—bitter pill—he and his dog were cast adrift.

Then on a lonely island came a Half a Chance, by an accident. And he took opportunity at the flood tide. A drama to tear your heart, lift your senses and carry you away on a Tide of Dynamic action.
